

Eurosash Superior A Triple Glazed 1.0

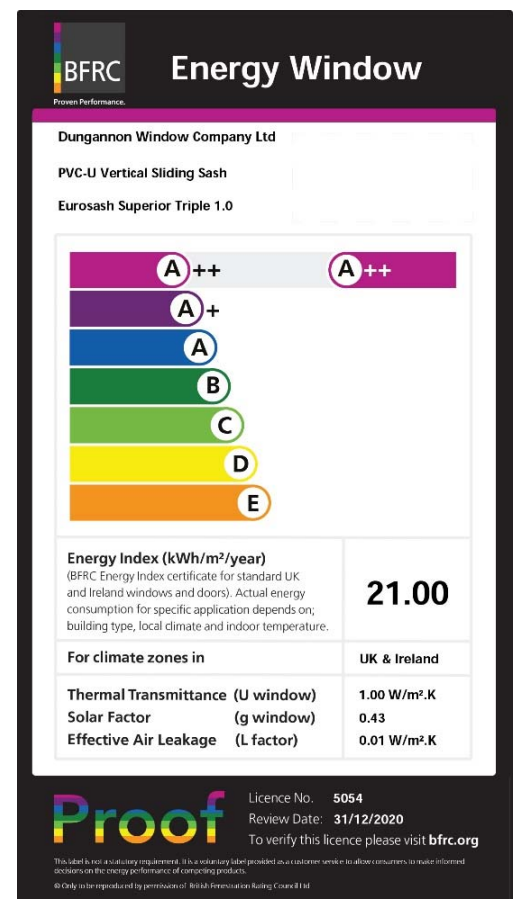

The **eurosash** Superior Triple A 1.0 is the **first sliding sash window** certified by the BFRC (British Fenestration Rating Council) for the A++ energy rating band. It achieves an energy index of 21 and has an ultra-low overall window **U-Value of 1.0 W/(m2.K)**. All **eurosash** windows are certified and we are audited annually to ensure compliance.

The **eurosash** Superior Triple A 1.0 window uses 'Elite-SE' 28mm triple glazing which has a centre pane **U-Value of 0.7W/(m2.K)**. The unit comprises of two panes of Low-E glass, one pane of low iron glass, twin warm edge spacer bars and **krypton gas** filled cavities.

Mixed reinforcing in the sashes combining thermal inserts and steel reinforcing for strength are used along with thermal barriers, insulated frames and our unique 12-part sealing system to ensure high performance and air-tightness.
